

Individual & Family Services

Thanks to additional funding by our state legislature last year, our state has opened its door to enrollment for nearly 4,000 children and adults on DDA's No Paid Services Caseload.

IFS is Open for Enrollment. If your son or daughter is a client of the Developmental Disabilities Administration (DDA) and not receiving a paid service, they may be eligible to receive a broad array of services and supports through the Individual & Family Services (IFS) waiver. IFS has four different funding levels (determined by assessed need): \$1200; \$1800; \$2400; \$3600.

Family Income is Not Considered. After an assessment determines level of need, a financial eligibility determination is made based on the individual's income*, not the family's. In addition to IFS services, clients on the IFS waiver will be eligible for Apple Health/Medicaid health care.

*DDA clients who have resources in their name in excess of \$2,000 may not be eligible for the IFS waiver.

IFS SERVICES INCLUDE:

- ▶ Assistive Technology
- ▶ Behavior Support & Consultation
- ▶ Behavioral Health Stabilization
- ▶ Community Engagement
- ▶ Environmental & Vehicle Modifications
- ▶ Peer Mentoring
- ▶ Person Centered Planning Facilitation
- ▶ PT, OT, Speech, Hearing & Language
- ▶ Sexual Deviancy Evaluation
- ▶ Respite Care
- ▶ Skilled Nursing
- ▶ Specialized Medical Equipment & Supplies
- ▶ Staff/Family Consultation & Training
- ▶ Supportive Parenting Services
- ▶ Therapeutic Equipment & Supplies
- ▶ Transportation (non-Medicaid Broker)

If your son/daughter is on the No Paid Services Caseload and has a need that could be met by the IFS waiver, call DDA and request IFS services.

Community First Choice: Personal Care and More

Another big change that's been in the works for more than a year has recently been put into place. Effective July 1st, 2015, nearly everyone who had been receiving personal care through a waiver or Medicaid Personal Care (MPC) is now receiving personal care through a new Medicaid state plan called Community First Choice (CFC). If you are currently receiving personal care services, there is nothing you need to do to get onto the new program; however, there are some new services included in CFC that you can request (now, or at your annual assessment).

Core Benefits*

Personal Care

Assistance, supervision and/or cueing with Activities of Daily Living (ADLs), Instrumental Activities of Daily Living (IADLs), and health-related tasks, due to functional disability.

Relief Care

Allows the individual to hire alternate personal care providers.

Nurse Delegation

A licensed registered nurse assigns specific nursing task(s) to a certified person to perform under the nurse's direction and supervision.

Skills Acquisition Training

ADLs, IADLs, and health-related skills-training to help the individual gain independence in those areas. Skills acquisition can be accessed through personal care hours or purchased as an enhanced service.

Personal Emergency Response System (PERS)

A basic electronic device that enables individuals to secure help in an emergency.

Caregiver Management Training

Individuals will be offered the opportunity to receive training materials on how to select, manage, and dismiss their care providers. Training will be available in booklet, DVD, and web-based formats to both participants and their chosen representatives.

*number of service credits/hours based on assessment

Enhanced Benefits*

Assistive Technology

Devices and apps that increase the individual's independence. Includes specialized add-ons to the basic PERS system such as fall detectors, medication reminders, and GPS locators for those who qualify.

Additional Skills Acquisition Training

May be purchased along with, or instead of, assistive technology.

Community Transition Services

Rent and utility deposits, bedding, basic kitchen supplies, and other expenses related to transitioning from a long term care facility (such as nursing home, hospital or RHC) to a person's own home in the community.

*\$500 annual limit for Assistive Technology and additional Skills Acquisition Training (combined).

*\$850 one time expenditure for Community Transition

ADLs and IADLs

Activities of Daily Living (ADLs) include: bathing, bed mobility, body care, medication management, eating, dressing, locomotion, personal hygiene, use of toilet, and transfers.

Instrumental Activities of Daily Living (IADL) is incidental to the provision of ADL assistance and includes: meal preparation, ordinary housework, essential shopping, and travel to medical services.
